Pietro Sillano

"Curiosity is the forerunner of the Discovery"

Education

2017-2020 **Bachelor's Degree in Physics Engineering**, *Politecnico di Torino*.

2020–Ongoing **Master's Degree in Physics of Complex Systems**, *Universitá di Torino*.

Bachelor Thesis

Title *Modelling Competing Endogenous RNA Networks*

Supervisor *A. Pagnani*

Experience

2018–2019 **Physics Tutor**, *Politecnico di Torino*.
I assisted the younger students explaining their theoric doubt and the assigned exercises for the lecture of Physics 1.

2019 **Student Team Collaboration**, *Policumbent Team* , Politecnico di Torino.
The aim of the team is to project and built from scratch the fastest bike in the word(almost succeded). I collaborated with the Electronics and Controal Board sections.

2021–Ongoing **Data Analyst**, *Machine Learning Journal Club*, Universitá di Torino.
MLJC is a student association that tries to fill the gap between the university and the industry in the field related to Machine Learning and Data Analysis. I currently work in the Medical AI section.

Interests of Research

My main interest is applying methods of Physics in other fields like:

- BioPhysics
- Neuroscience
- Artificial Intelligence

Skills

- Machine Learning (Scikit-Learn, Tensorflow)
- Python, C++, Latex
- Problem Solving & Team Working

Italy – Torino

pietrosillano@gmail.com • *pietro-sillano* • *pietro-sillano*

Languages

English IELTS Academic Test - 6.5

Hobby & Interest

- I'm interested in science behind food and cooking
- Homebrewing from scratch
- I love tinkering with 3D printing, DIY kits and Arduino

Italy – Torino
